Captain White House
North Bristol, Ohio

HBSS No. O-259

This unusual Greek Revival type house was built around the year 1830. It is one of a series of similar type houses which were constructed along this old stage route from Pittsburgh to the Lake and Ash-tabula. The names of the builders has not yet been found, although there is evidence of their handiwork throughout the surrounding country.

Especially interesting is the construction of the main pilasters on the front facade, being made up of laminated wood strips cut to form a curved contour to give the pilaster its emphasis.

The house is now occupied by a Mr. Williams and his family.
